I am a designer and video editor with over 6 years of experience. I have worked across the various design fields. I like to combine creativity with marketing and attention to detail.

I really like working with people. Also, I am always adapting to new technologies, such as AI (Artificial Intelligence), to improve my work and achieve, make it more efficient, and achieve better results.

I have been in charge of design and digital projects in different areas, making things that people notice and that help companies achieve their goals, and making plans. I also helped two companies get listed on the Indonesian Stock Exchange.
